
AGENDA
**Offshore System Integration
Merits & Challenges**

**Key results of the North Sea Energy 2 project
6 February 2019**

As part of Topsector Energy:
TKI Offshore Wind & TKI New Gas

- 14.00 Walk-in with coffee and tea
- 14.30 Word of Welcome by Rene Peters, TNO
- 14.45 *The North Sea Energy 2 project in context* by Joris Koornneef, TNO
- 15.00 *Techno-economic scenarios and economic impact of offshore energy system integration options at case study areas* by Leonie Beekman, TNO and Malte Renz, New Energy Coalition
- 15.15 *Regulatory framework: barriers or drivers for offshore system integration* by Dinand Drankier, Rijksuniversiteit Groningen
- 15.30 Coffee Break
- 15.45 *Screening of optimum re-use of the subsurface* by Ton Wildenberg, TNO
- 16.00 *Environmental performance of offshore energy - potential impacts of the presence of offshore energy infrastructure on benthic species, fish, birds and marine mammals* by Robbert Jak, Wageningen Marine Research
- 16.15 *Strategic Assessment of Impacts of Possible System Integration of Oil & Gas and Wind Energy* by Suzan Tack, RoyalHaskoningDHV
- 16.30 Wrap-up & Outlook by Joris Koornneef, TNO
- 16.45 Networking Drinks
